

REACH COMPLIANCE / SVHC STATEMENT

SVHC Substances in Durst Inks (last update on January 17, 2023)

We confirm that, to the best of our current knowledge, the products listed in the Appendix are not formulated to contain Substances of Very High Concern (SVHC) currently specified by the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) legislation in an individual concentration of $\geq 0,1\%$ by weight. This is referring to the current SVHC Candidate List (233 entries) as published on January 17th, 2023 by the European Chemicals Agency (ECHA).

Furthermore, the products in the Appendix do neither contain any substances listed on REACH Annex XIV (List of Substances Subject to Authorisation) nor on Annex XVII (Restrictions on the Manufacture, Placing on the Market and Use of Certain Dangerous Substances, Preparations and Articles) above the applicable declaration limits and for the intended use (Regulation (EC) No 1907/2006 - consolidated v. 17/12/2022).

This statement also applies to all Durst UV-curable inks (LED, Hg-Bulb), Dye-Sublimation inks and WT inks including corresponding fluids (e.g. Cleaning Solution, Faceplate Solution, etc.) in their original packaging and is void upon Durst products being altered or contaminated in any way.

To fully understand the obligations that you as our customer have under REACH we recommend that you consult the ECHA website for further information: <https://echa.europa.eu/home>

We stay at your disposal for any further questions.

Best regards,

A handwritten signature in blue ink, appearing to read "S. Kappaun", is written over the printed name.

Dr. Stefan Kappaun, MBA
Executive Vice President Inks and Fluids
Durst Group AG
